GENERAL FAQs

Do I need to be a EHPA Member to apply?

No, a EHPA Membership is not a requirement to apply to the HPAwards. You just need to have an awesome project involving heat pumps!

When is the deadline to apply?

The official deadline is **August 15th**. After that you can still submit your project, but it will be evaluated in the next edition of the Award.

What is the application procedure?

The application procedure is very simple. You can find detailed info on it [here](#). On the same page you will find the application template, which you can download and fill out.

When and how will I know if I won?

You will receive an email with the result of the Jury evaluation **after September 12th**, regardless of the outcome.

Why should I apply?

- The best networking and promotional platform for your project(s)
- A personalised LEGO Award
- Winners' booklet and webinar
- 1-person free entrance and hotel accommodation to our yearly HP Forum

Can I apply every year?

Yes, you're free to apply every year, even with the same project.

Keep in mind the projects' application requirements, which you will find in the FAQs below.

What is the People's Choice Award category? How does it work?

The People's Choice Award is our most special category. Every project submitted under one of the other 4 categories can decide to apply to this category as well by indicating "yes" to the question "Do you want your project to participate in the **"People's Choice award: The most popular HP project"**?" on the last slide of the template.

This is an additional application which doesn't impact the evaluation of your project submitted to the specific category of your choice.

Is it mandatory to use the template?

Yes. The template makes sure that you give us all the necessary info about your project and guides the Jury during their evaluation process.

How detailed should my project's presentation be when filling out the template?

That's up to you. As a general guideline, the more technical details and material, the better.

What communications should I expect from EHPA's side?

You will receive:

- an automatic email confirming your application
- an email once the People's Choice Award public voting has opened. This only applies if your project is running for this award category
- and email with the results of the Jury evaluation. If you're one of our 5 winners, you'll receive details on the HPAward ceremony you'll be invited to attend

Can I modify my presentation once I've sent it?

If necessary you can reach out to us via the contact form. **As a general rule, modifications after the submission should be avoided, and changes can be applied only until August 15th.**

I don't understand a question on the template. Can I get some clarification?

You can read our **Guidelines** for a thorough explanation on each question and its corresponding answer.

PROJECT FAQs

Can I apply in different categories with the same project?

No. It's one category per project. But you can apply with multiple projects under the same category, or if you're super ambitious, you can submit projects in all 5 categories.

How do I know which category is best for my project?

Make sure you check and read very well the description of the categories, which you can find [here](#). Should you still have doubts on this, please contact us.

What if my project has no technical application in real life? e.g. educational projects

As of now, our application template doesn't allow you to submit a project that has no real-life heat pump implementation. Application details are a crucial part of the evaluations criteria.
